Create Your Own Book

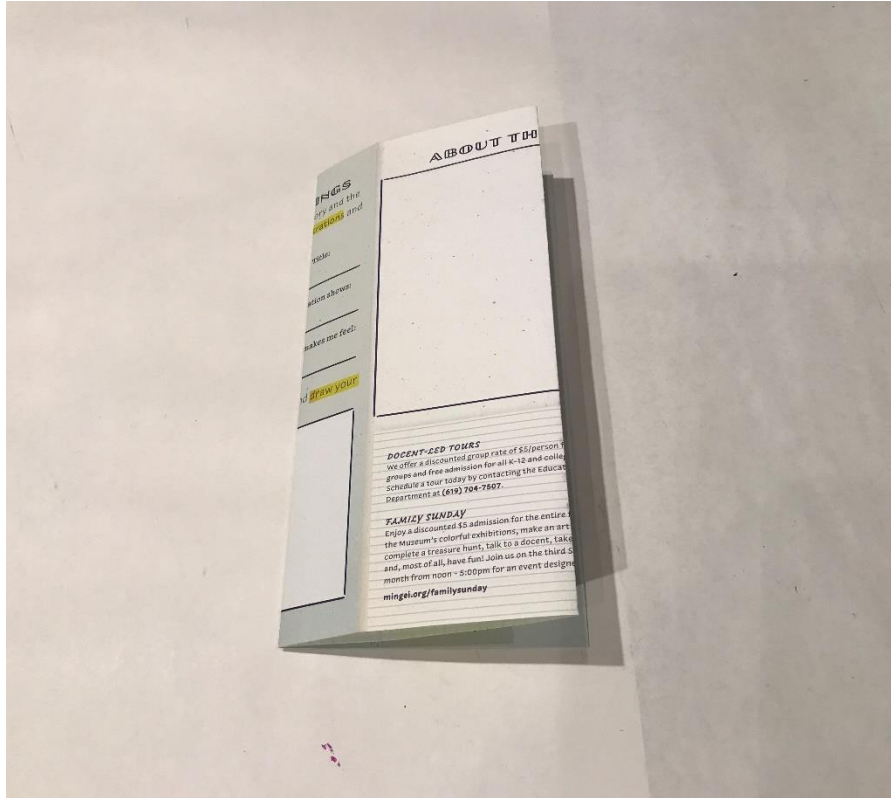

Using the Voluminous Art Discovery Guide

Supplies:

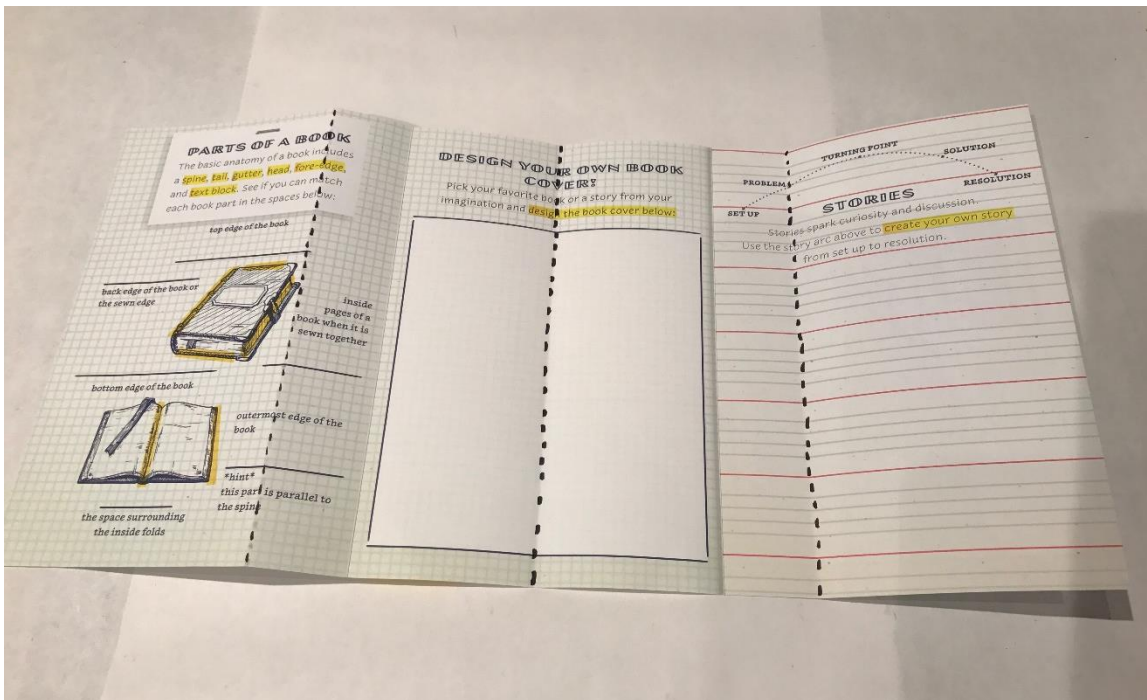

- Voluminous Art Discovery Guide
- 2 different colored markers
- Scissors

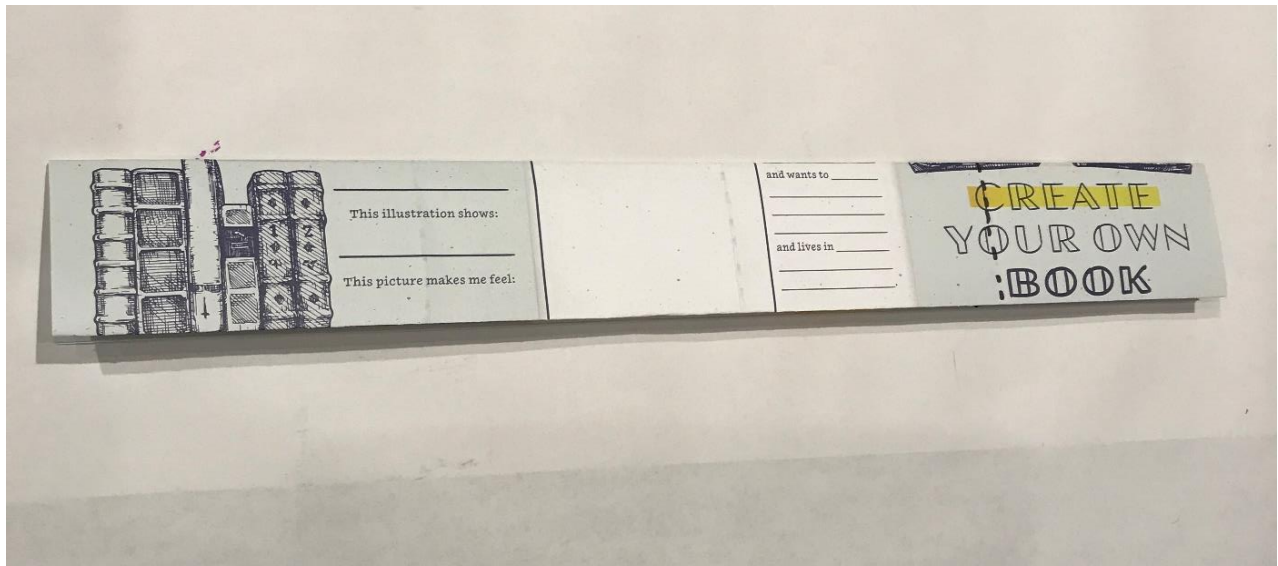

Step 1: Unfold the three flaps of the Discovery Guide. Fold the paper in half widthwise and then fold it in half again.

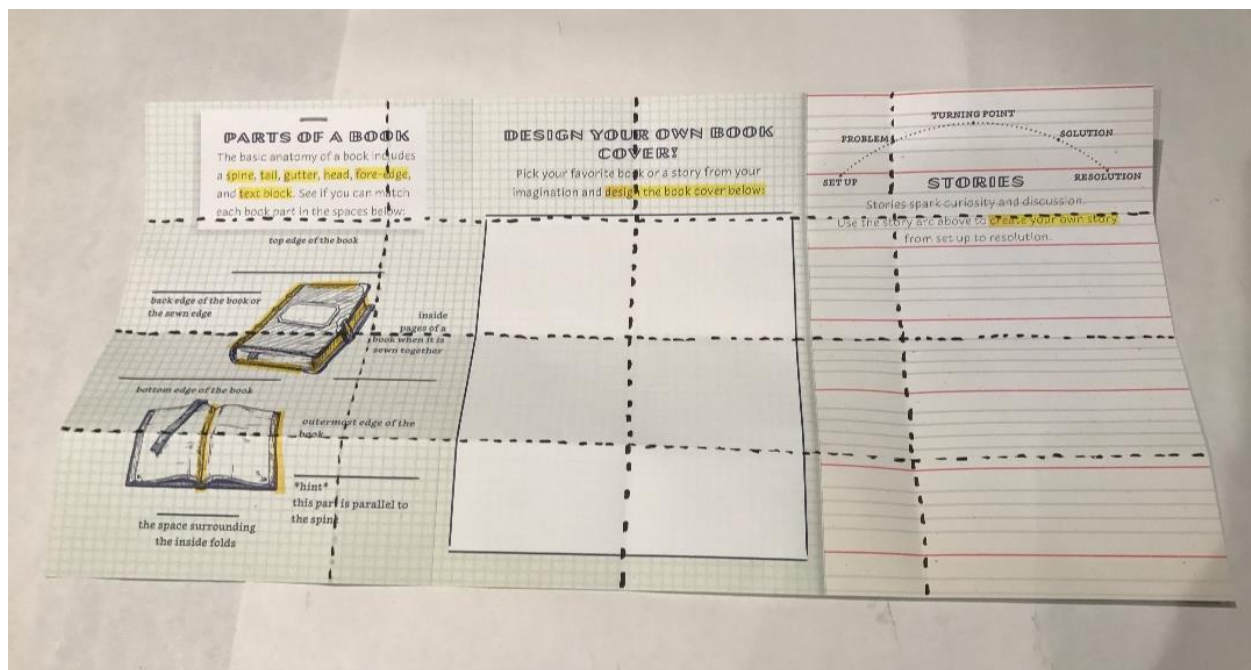

Step 2: Unfold the paper and use your marker to make dotted lines along the three folds.

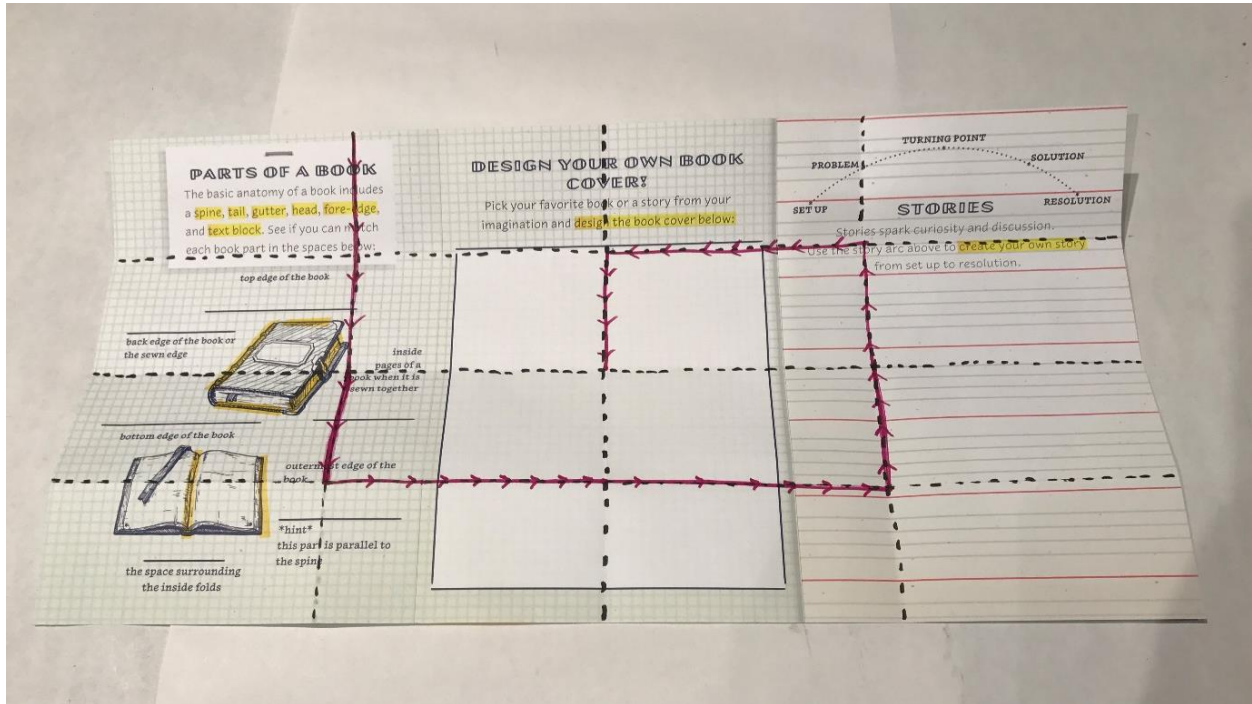

Step 3: Now fold the paper in half lengthwise and then fold it in half again.

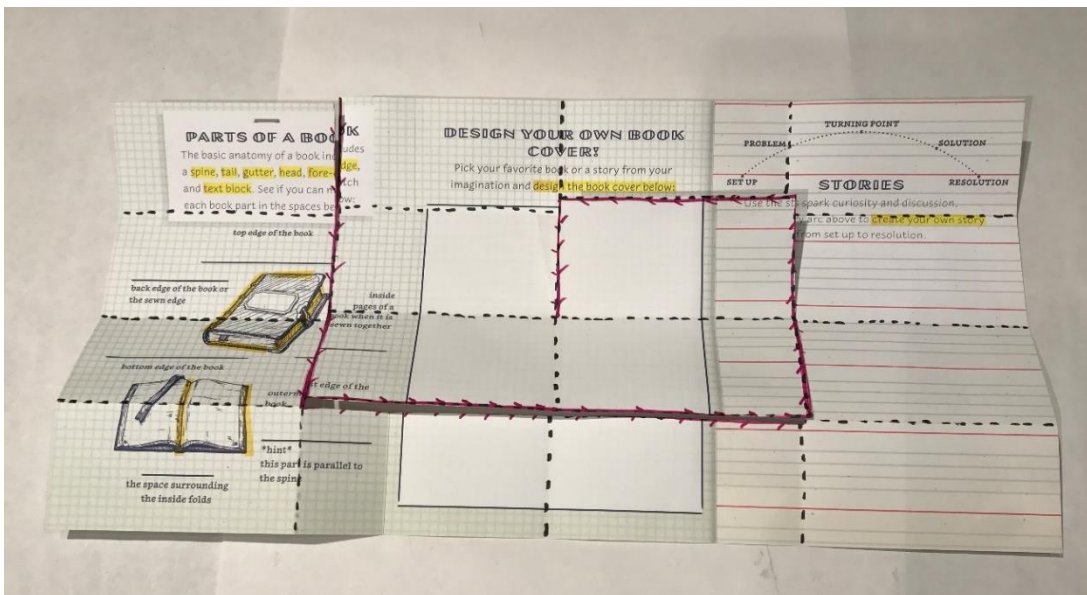

Step 4: Unfold the paper and use your marker to make dotted lines along the three folds. You should now have a grid with 16 squares.

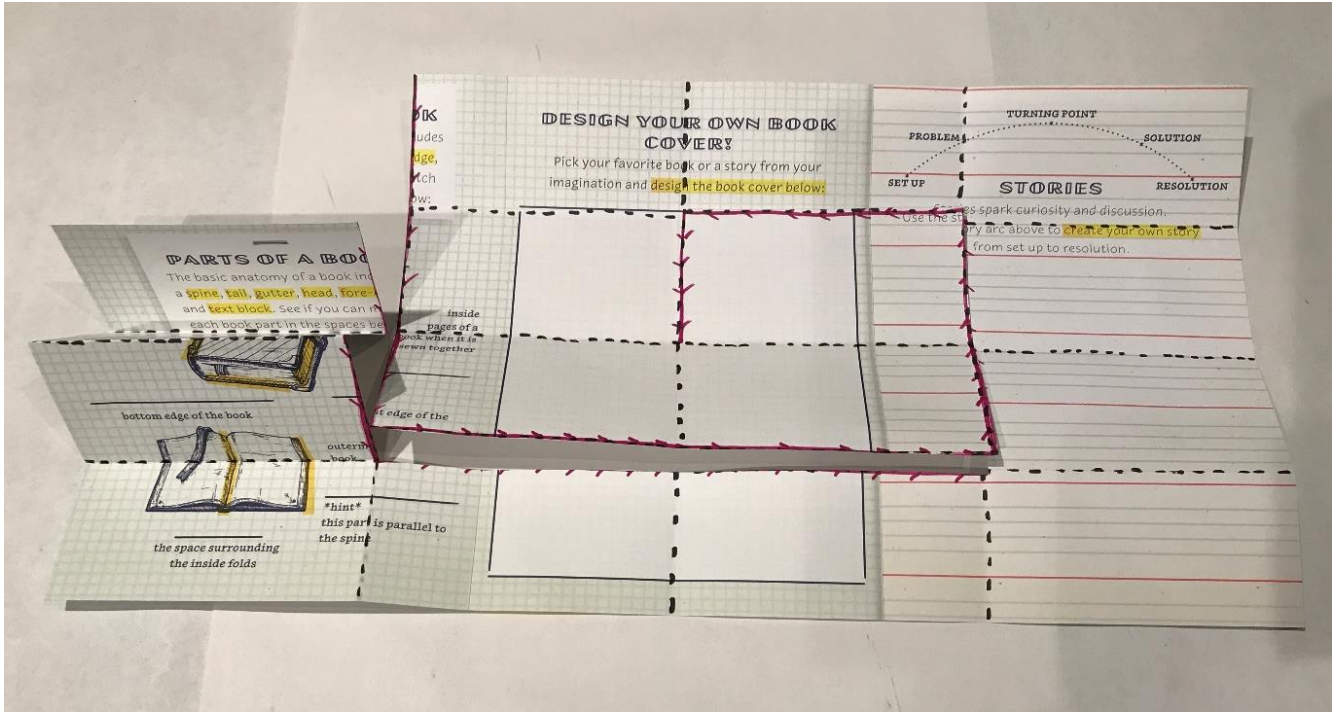

Step 5: Use the other color marker to trace the dotted lines where you will cut the paper. Start at the dotted line in the top left corner and go three squares down and two squares across, to the right. Then go two squares up, one square over to the left, and one square down to the center of the paper.

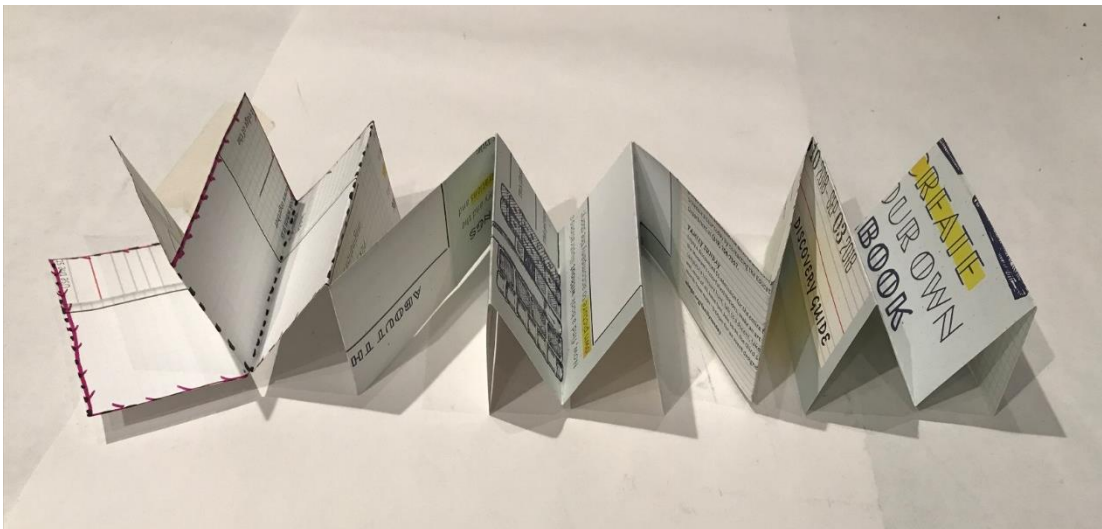

Step 6: Cut along the lines that you traced over in the second color marker. Follow the order in which you traced the lines.

Step 7: Start from the top left square and fold all the squares together accordion style.

Step 8: When you are finished folding the book should look like this.

Step 9: Now you can decorate each page with colorful paper, markers, paint, fabric, or anything you want. Fold the pages back together and you have a book!
